## QUALITY TECHNICIAN - CONSTRUCTION FIELD

Alberici has a proud 90-year history of providing a full complement of construction services throughout North America. We have an immediate opening for a Quality Technician located in the Greater Toronto Area.

This position is responsible for providing technical support to field staff and a project management team. In this role, you will administer site specific requirements of the Quality Program. Acting as a liaison and a quality resource for the team, you will monitor and ensure adherence to Quality Assurance and Quality Control policies and procedures.

### Requirements:

- 3 or more years of related experience in a quality role.
- Experience in the construction sector is strongly preferred.
- Exposure to concrete projects is an asset
- Ability to interpret technical drawings, project specifications, codes, standards, acts and regulations
- Ability to handle multiple tasks simultaneously
- Strong attention to detail and follow up skills
- Highly organized
- Excellent verbal and written communication skills
