Suncor has the best job opportunities for newly qualified tradespeople and professionals, all the way to industry veterans. If you're ready to take your career in exciting new directions, picture yourself at Suncor.

POSITION OVERVIEW

The role of Director Construction, Firebag is to provide leadership and guidance to contractors and staff to ensure the effective utilization of their resources in the safe delivery of the project on time and within budget. This position is one of two required to take full responsibility to execute construction management portion of all five silos of the Firebag Stage 3 Dillbit Project Area.

JOB DESCRIPTION

- Overall management of Firebag Stage 3 central facilities construction contractors
- Leadership for environment, health and safety performance on behalf of Major Projects at the Firebag site
- Overall responsibility for construction indirect budget and achievement of cost and schedule objectives for the project
- Interface with Firebag Stage 3 Commissioning and Start Up team
- Maintain an engaged construction management team that is aligned with Suncor's values, beliefs and demonstrate commitment to operational excellence
- Provide co-leadership and direction to up to 120 assigned staff
- Provide support and input to all significant aspects of site administration including, but not limited to: Camp/aviation, Field purchasing and contracts, Receiving, Quality Assurance, Field engineering, Labour relations, Aboriginal and Community relations

EXPERIENCE AND EDUCATION

- Over 15 years of total experience including overall responsibility for several large projects (\$100 million plus) in the oil and gas sector
- Knowledgeable of all aspects of a central plant construction program, including civil, foundations, buildings, piping, mechanical equipment, electrical and instrumentation
- Experience with bitumen processing facilities or fixed plant construction
- Northern remote location experience is required
- Must have experience dealing with aboriginal and community relations
- Previous experience working and interfacing with home office engineering disciplines and procurement (total project team of 100+ people)
- Experience in construction based on 3-D model platforms is helpful but not necessary

WORKING CONDITIONS

- This position is based at our Firebag in-situ operation, which is a remote site located 2 hours NE of Fort McMurray
- Air transportation from Firebag Site to Calgary, Edmonton and Saskatoon is provided
- Work Schedule is 10 days on and 4 days off
- Accommodation is based in a camp environment

WHAT MAKES US ATTRACTIVE

When you join Suncor Energy, you're signing on with a dynamic leader that has built a solid foundation for both business and employee success through a 'total rewards' approach to compensation – both monetary and non-monetary. Providing a flexible package that can be adjusted to suit the changing needs of your life, which includes:

- Competitive Base Salary and Compensation Programs
- Attractive Annual Incentive Program
- Flexible Benefits Package
- Personal Time-Off Days
- Rewarding Pension & Savings Plans

Suncor is committed to employment equity and encourages applications from all qualified individuals.
