

Project Manager

Under the general direction of the Vice President of Transportation & Infrastructure, the Project Manager is responsible for the direction of operational and technical staff as well as the implementation of secure and efficient controls for the projects assigned.

Your responsibilities

- Provide a thorough management of operational and technical personnel as well as external subcontractors during the bid phase of the projects
- Work closely with consultants to analyze and review design deliverables and ensure there are no delays
- Interact and manage various suppliers and subcontractors
- Analyze and review subcontracts agreements to compliance with the technical and operational requirements of the company
- Lead the company team during bid submissions
- Offer business development support to the executive management
- Perform any related duty as required

Our Offer

- Salary from \$80 000 to \$90 000
- Group insurance benefits
- Full-time permanent position based in Toronto with frequent travel to Windsor (50/50)

Our requirements

- Must have 10-15 years project management experience within the construction/engineering sector
- Multi-national joint venture environment experience
- Excellent technical, communication, organizational, managerial and planning skills
- Strong experience with a major contractor within Canada
- Excellent relational and leadership skills
- Working knowledge of contract language and legal requirements of contracts
- Computer literate (CCS estimating software knowledge, an asset)
- Ability to identify and analyze problems and provide appropriate solutions
- Required to travel within Canada and elsewhere as needed
