## About the Organization

For forty-nine years, *KellerDenali Construction* has been striving towards excellence in the construction industry. Since our inception in 1962, we have had the opportunity to develop relationships with clients to create both functional and economical projects.

As an industry leader, *KellerDenali Construction's* experience with repeat clientele proves that our quality and workmanship is being noticed. Our success can be attributed to the highly trained, competent team who are skilled in the disciplines of construction and management and consistently deliver a product of highest quality to the owner.

Some of our services are centered around pre-construction, traditional bid, design build, construction management and general contracting.

**People, Passion and Performance**, are the values that have enabled *KellerDenali Construction* to succeed and grow for the past 49 years. At KellerDenali Construction ***The Difference is the Experience!*** For more information please visit their website at [www.KellerDenali.com](http://www.KellerDenali.com)

## About the Opportunity

Reporting to the Construction Manager, the primary function of this role is to **provide efficient and accurate quotations for clients.**

The range of day-to-day duties involved in this position include:

- Calculating quantity take-off detailing all the materials and supplies necessary for the contract to achieve specification;
- Being responsible for the quantity survey, the unit pricing, the general conditions cost managing of the work and the application of overhead;
- Setting the proposal language or "Terms and Conditions";

- Assisting the Project Manager in initial sequencing of construction activities and outlining components such as labour, materials, and equipment;
- Reviewing bid package blueprints and drawings;
- Preparing tender prices from the architect's or engineer's drawings;
- Presenting bid package with tender price for clients and revise as needed;
- Attending pre-bid meetings for clarification; and
- Perform a variety of tasks as assigned of a similar nature or level.

To be successful in this role, you will need to have completed a **Technical Engineering Degree** or have an equivalent combination of technical training and experience. Accreditation as a **Civil Engineering Technician** with a **CET designation** is preferred.

You are equipped with several years' experience leading an estimating department and have estimated projects upwards of \$10M - \$15M in value. You are well connected in the Edmonton Market and subtrades. Knowledge of pre-engineered metal buildings would be a plus.

We are looking for a self-motivated individual who likes a challenge - a hard-working, team player, with strong communication skills, and attention to detail. You will have a strong customer service focus, and be skilled at analysis assessment.

### **About the Benefits**

The successful candidate will be rewarded with an **attractive remuneration package starting at \$70,000 per year** depending on experience. Working for *KellerDenali Construction* comes with great benefits including:

- Generous **medical and dental** plan;
- **Life and disability** insurance;
- Annual **bonus** potential;
- Three weeks of annual **vacation**;
- Employee **education assistance** as furthering education is supported; and
- A **friendly and dynamic team culture**.

This is a unique opportunity to join a thriving and growing company, at an exciting time. Furthermore, you will enjoy being part of a working environment that promotes **personal and professional growth** in an atmosphere of trust, respect, and collaboration. If have passion for the construction industry and show an excellent work ethic, **apply now!**
