

Construction Superintendent

LOCATION: CALGARY

Bird Construction Company is one of Canada's leading General Contractors and is recognized for its strong commitment to the growth and prosperity of both our clients and our people. Bird Construction Company was founded as a small partnership in Moose Jaw, Saskatchewan in 1920. Today, we are a highly respected company, operating across Canada.

In general, the Construction Superintendent, in conjunction with office project management staff, is responsible for the day to day management of the construction site on an assigned project, executing field operations in a manner consistent with Company objectives.

Responsibilities:

- Initiates, coordinates, directs and evaluates plans, schedules and site personnel to ensure project objectives.
- Implements and manages the Bird Safety Program; perform regular hazard analysis and toolbox meetings.
- Ensures sufficient manpower is provided to achieve safety, schedule and quality objectives.
- Prepares overall work plan and schedule in conjunction with Project Manager.
- Reviews and provides assistance regarding quality assurance and control.
- Monitors all site instructions and change notices and makes adjustments as required.

Qualifications Include:

- 5+ years of progressive experience with a focus on industrial, commercial and institutional construction.
- Working knowledge and experience in the areas of safety, workforce management, project execution, cost control, quality and administration.
- Excellent management and problem-solving skills
- Exceptional organizational and planning skills
- You are both a leader and team player with the ability to maintain positive working relationships with field personnel, trades, consultants and our clients.
